POD Overview

What is a POD

A Point of Dispensing site is a mass dispensing site that provides Medical Counter Measures (MCM) such as medication or vaccination to the public during a public health emergency. The main operational activities happening in a POD is Registration, Form Review, and Dispensing. A POD is staffed by medical and non-medical personnel.

Where healthy individuals come in to receive medication or vaccination. The main target being the exposed population.

Four Main Operation Activities

- 1) Intake
- 2) Screening
- 3) Dispensing
- 4) Exit

Goals of a POD

- Prevent illness
- Decrease the number of individuals who may get ill
- Decrease the number of individuals who are sick
- Provide information to the public about the threat and treatment being dispensed
- Provide medication/vaccination to exposed populations in a quicker time period

What is NOT a POD

A POD site is **NOT** an emergency room, urgent care, trauma center, doctors' office, a shelter, or a consultation service.

Not for treating sick individuals

POD Activation

Really depends on what is going on. Some questions I would ask first are:

- What is the illness? What is the cause of the illness?
- What are the possible treatment options?
- Is mass dispensing appropriate for the event?
 - Is this affecting a large proportion of people?
 - Will this overwhelm the first responders / hospital / doctors?

Examples

COVID is a good example of PODs with COVID Clinics offering Shot and Tests. Anthrax attacks giving out medication to the population. Nuclear Power Plant having a release of radiation and as a precaution the county distributes medication to the population.

- Ensure deputies have dependable vehicles for emergency response
- Support operational efficiency and officer safety
- Avoid downtime that impacts countywide public safety coverage

Cost Summary

- **Cost Per Vehicle: \$55,552**
- **Total Requested Amount: \$833,280**

Funding Source

This fleet replacement is planned to be funded through the **2025 General Obligation (GO) Bond**, consistent with the County's capital planning strategy.

Request

The Hancock County Sheriff's Office respectfully requests the Council's approval to proceed with the acquisition of these fifteen 2026 Police Tahoe's as part of the 2025 GO Bond-funded capital replacement plan.

Thank you for your ongoing support and commitment to public safety in Hancock County. We appreciate your consideration of this request and your continued partnership in ensuring our deputies have the equipment necessary to serve and protect our community.
